

## Don't procrastinate – automate

Mundane, repetitive tasks can slow your business down

Streamline your service by taking the slog out of data entry.

Use **E2db Server** from Interkonect Services UK Ltd to automatically enter web form responses (i.e. the emails generated by your web forms) into your company database.

Saves time to concentrate on your core business.

Your customers will notice your efficiency and your accountant will notice your increased sales.

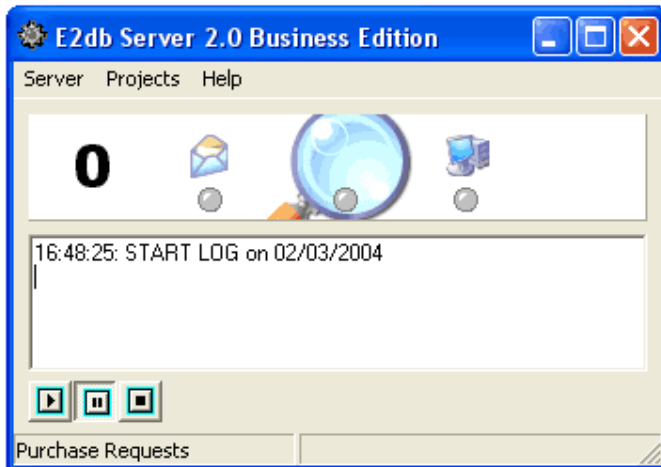

E2db Server brings simple integrated and clear operations to your business. Not only is time and money saved – your time can be better spent.

## Time is money
